

# VISITOR SAFETY GUIDELINES.

## Welcome to Teknoware!

The safety of visitors and Teknoware personnel is our priority. To ensure everyone's safety, please take time to read these instructions carefully.

Moving around the factory is only permitted when accompanied by Teknoware personnel. On arrival, inform your contact person via telephone and follow their instructions. During your visit, obey all instructions given and observe all safety signs.

## Contact information

Teknoware Oy  
Ilmarisentie 8, 15200 Lahti  
Phone: +358 3 883 020

## In the case of an emergency

In the case of an emergency, follow all instructions given by Teknoware staff.

In Finland, the phone number for the emergency services is 112.

## VISITOR SAFETY GUIDELINES

### Security

Visitors must always be accompanied by a Teknoware member of staff.

Always inform your contact person via telephone before entering the facility.

Visitors must not carry any sharp objects or firearms.

Entering the facility while under the influence of drugs or alcohol is strictly prohibited.

### During the visit

Personal protective equipment and ESD protection is required in designated areas. Always follow any safety instructions given when entering a new area.

You are only allowed to walk in designated areas. Do not take shortcuts.

Do not use or touch any equipment without explicit authorization from your Teknoware contact person.

Photography (with a camera or phone) is not allowed without express permission from your Teknoware contact person.

If you must use your phone, pay attention to your surroundings and make sure that you are in a safe place to do so.

Smoking is allowed only in designated areas.

If you witness any accidents or other safety hazards, inform your contact person immediately.

### Traffic rules and safety when moving around

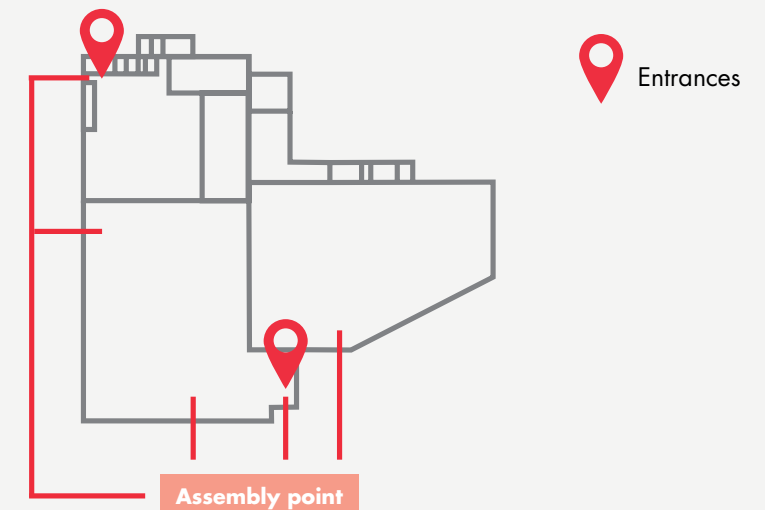

In parking areas, observe normal Finnish traffic rules. Stay within designated lanes. The maximum speed limit is 20 km/h. Parking is only allowed in designated spaces.

Pay attention to forklift trucks and other moving machines when moving around the facility.
