

TKT24 - ADDRESSABLE CENTRAL BATTERY SYSTEM

Addressable TKT24-series central battery units for smaller locations, renovation projects and to buildings in which a centrally supplied system is divided into several independent areas.

In renovations, the TKT24 series center and luminaires can replace the old emergency lighting system directly with a new system using old cables. The center also has easy updating of the old system to address.

We reserve the rights to make modifications without notice.
